

Sala Baii Hotel School

Created in 2002 by a French NGO, Sala Bai is a free Hotel school for disadvantaged Cambodians. Every year the school trains 100 Cambodian students from the countryside in the four main professions of the hospitality industry: restaurant waiter/waitress, cook, receptionist and housekeeping attendants. Many of the staff at Babel Guesthouse did their training in Sala Bai Hotel School.

Sala Bai has their own training restaurant open for Tourists. Visit the restaurant for breakfast or lunch, and see for yourself how great training they receive. The food is good, the staff is very polite, and they need all the training they can get. The money you spend there goes directly to the program
