

Marum restaurant

Since 1994, Friends International has been working to build the futures of children and young people from disadvantages backgrounds. One of their programs is a restaurant school newly opened here in Siem Reap, **Marum**. Like Sala Bai, they have a restaurant open for tourists, serving creative and exiting local cuisine. Like Sala Bai Hotel school, the food and service is really good! Open all day. Recommendable!

If you go to Phnom Penh, make sure you visit one of their two very popular training restaurants, Friends International The Restaurant and Romdeng. And if you have time, visit their Souvenir shop Friends 'n' stuff. They sell unique products handmade by parents so their children can go to school.
